Board of Supervisors Rustic Oaks Community Development District

NOTE: Meeting Location

Dear Board Members:

The Board of Supervisors of the Rustic Oaks Community Development District will hold a Public Hearing and Regular Meeting on August 15, 2022 at 1:30 P.M., at the Homewood Suites Sarasota Lakewood Ranch, 305 N. Cattlemen Road, Sarasota, Florida 34235. The agenda is as follows:

- 1. Call to Order/Roll Call
- 2. Public Comments
- 3. Acceptance of Resignation of Chris Torres, SEAT 4 (Term Expires November 2023)
- 4. Consider Appointment of Michael Byrd to Fill Vacancy in Seat 4
 - A. Administration of Oath of Office to Newly Appointed Supervisor (the following to be provided in a separate package)
 - I. Guide to Sunshine Amendment and Code of Ethics for Public Officers and Employees
 - II. Membership, Obligations and Responsibilities
 - III. Chapter 190, Florida Statutes
 - IV. Financial Disclosure Forms
 - a. Form 1: Statement of Financial Interests
 - b. Form 1X: Amendment to Form 1, Statement of Financial Interests
 - c. Form 1F: Final Statement of Financial Interests
 - V. Form 8B: Memorandum of Voting Conflict
 - B. Consideration of Resolution 2022-17, Designating Certain Officers of the District, and Providing for an Effective Date
- 5. Consideration of Resolution 2022-08, Designating the Primary Administrative Office and Principal Headquarters of the District and Providing an Effective Date
- 6. Public Hearing on Adoption of Fiscal Year 2022/2023 Budget

Board of Supervisors Rustic Oaks Community Development District August 15, 2022, Public Hearing and Regular Meeting Agenda Page 2

- A. Proof/Affidavit of Publication
- B. Consideration of Resolution 2022-18, Relating to the Annual Appropriations and Adopting the Budget for the Fiscal Year Beginning October 1, 2022, and Ending September 30, 2023; Authorizing Budget Amendments; and Providing an Effective Date
- 7. Consideration of Fiscal Year 2022/2023 Budget Funding Agreement
- 8. Ratification of Stormwater Management Needs Analysis Report
- 9. Acceptance of Unaudited Financial Statements as June 30, 2022
- 10. Approval of June 6, 2022 Regular Meeting Minutes
- 11. Staff Reports
 - A. District Counsel: Straley Robin Vericker
 - B. District Engineer: Clearview Land Design, P.L.
 - C. District Manager: Wrathell, Hunt and Associates, LLC
 - NEXT MEETING DATE: September 19, 2022 at 1:30 P.M.
 - QUORUM CHECK

RESOLUTION 2022-17

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE RUSTIC OAKS COMMUNITY DEVELOPMENT DISTRICT DESIGNATING CERTAIN OFFICERS OF THE DISTRICT, AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Rustic Oaks Community Development District ("District") is a local unit of special-purpose government created and existing pursuant to Chapter 190, Florida Statutes; and

WHEREAS, the Board of Supervisors of the District desires to designate certain Officers of the District.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE RUSTIC OAKS COMMUNITY DEVELOPMENT DISTRICT:

SECTION 1.		is appointed Chair.
SECTION 2.		is appointed Vice Chair.
Section 3.	Craig Wrathell	is appointed Secretary.
_		is appointed Assistant Secretary
_		is appointed Assistant Secretary
_		is appointed Assistant Secretary
_	Kristen Suit	is appointed Assistant Secretary

SECTION 4. This Resolution supersedes any prior appointments made by the Board for Chair, Vice Chair, Secretary and Assistant Secretaries; however, prior appointments by the Board for Treasurer and Assistant Treasurer(s) remain unaffected by this Resolution.

SECTION 5. This Resolution shall become effective immediately upon its adoption.

[remainder of page intentionally left blank]

PASSED AND ADOPTED this 15th day of August, 2022.

RESOLUTION 2022-08

A RESOLUTION BY THE BOARD OF SUPERVISORS OF THE RUSTIC OAKS COMMUNITY DEVELOPMENT DISTRICT DESIGNATING THE PRIMARY ADMINISTRATIVE OFFICE AND PRINCIPAL HEADQUARTERS OF THE DISTRICT AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Rustic Oaks Community Development District ("**District**") is a local unit of special-purpose government created and existing pursuant to Chapter 190, *Florida Statutes*; and

WHEREAS, the District desires to designate its primary administrative office as the location where the District's public records are routinely created, sent, received, maintained, and requested, for the purposes of prominently posting the contact information of the District's Record's Custodian in order to provide citizens with the ability to access the District's records and ensure that the public is informed of the activities of the District in accordance with Chapter 119, Florida Statutes; and

WHEREAS, the District additionally desires to specify the location of the District's principal headquarters for the purpose of establishing proper venue under the common law home venue privilege applicable to the District.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE RUSTIC OAKS COMMUNITY DEVELOPMENT DISTRICT:

- 1. PRIMARY ADMINISTRATIVE OFFICE. The District's primary administrative office for purposes of Chapter 119, *Florida Statutes*, shall be located at 2300 Glades Road, Suite 410W, Boca Raton, Florida 33431.
- **2. PRINCIPAL HEADQUARTERS.** The District's principal headquarters for purposes of establishing proper venue shall be located at the offices of and within Sarasota County, Florida.
 - **3. EFFECTIVE DATE.** This Resolution shall take effect immediately upon adoption.

PASSED AND ADOPTED this 15th day of August, 2022.

RESOLUTION 2022-18

THE ANNUAL APPROPRIATION RESOLUTION OF THE RUSTIC OAKS COMMUNITY DEVELOPMENT DISTRICT ("DISTRICT") RELATING TO THE ANNUAL APPROPRIATIONS AND ADOPTING THE BUDGET FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 2022, AND ENDING SEPTEMBER 30, 2023; AUTHORIZING BUDGET AMENDMENTS; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the District Manager has submitted to the Board of Supervisors ("Board") of the Rustic Oaks Community Development District ("District") proposed budgets ("Proposed Budget") for the fiscal year beginning October 1, 2022 and ending September 30, 2023 ("Fiscal Year 2022/2023") along with an explanatory and complete financial plan for each fund of the District, pursuant to the provisions of Section 190.008(2)(a), Florida Statutes; and

WHEREAS, the District filed a copy of the Proposed Budget with the local governing authorities having jurisdiction over the area included in the District pursuant to the provisions of Section 190.008(2)(b), *Florida Statutes*; and

WHEREAS, the Board set a public hearing thereon and caused notice of such public hearing to be given by publication pursuant to Section 190.008(2)(a), Florida Statutes; and

WHEREAS, the District Manager posted the Proposed Budget on the District's website at least two days before the public hearing; and

WHEREAS, Section 190.008(2)(a), Florida Statutes, requires that, prior to October 1st of each year, the Board, by passage of the Annual Appropriation Resolution, shall adopt a budget for the ensuing fiscal year and appropriate such sums of money as the Board deems necessary to defray all expenditures of the District during the ensuing fiscal year; and

WHEREAS, the District Manager has prepared a Proposed Budget, whereby the budget shall project the cash receipts and disbursements anticipated during a given time period, including reserves for contingencies for emergency or other unanticipated expenditures during the fiscal year.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE RUSTIC OAKS COMMUNITY DEVELOPMENT DISTRICT:

SECTION 1. BUDGET

a. The Board has reviewed the Proposed Budget, a copy of which is on file with the office of the District Manager and at the District's Local Records Office, and hereby approves certain amendments thereto, as shown in Section 2 below.

- b. The Proposed Budget, attached hereto as **Exhibit "A,"** as amended by the Board, is hereby adopted in accordance with the provisions of Section 190.008(2)(a), *Florida Statutes* ("**Adopted Budget"**), and incorporated herein by reference; provided, however, that the comparative figures contained in the Adopted Budget may be subsequently revised as deemed necessary by the District Manager to reflect actual revenues and expenditures.
- c. The Adopted Budget, as amended, shall be maintained in the office of the District Manager and at the District's Local Records Office and identified as "The Budget for the Rustic Oaks Community Development District for the Fiscal Year Ending September 30, 2023."
- d. The Adopted Budget shall be posted by the District Manager on the District's official website within thirty (30) days after adoption, and shall remain on the website for at least 2 years.

SECTION 2. APPROPRIATIONS

There is hereby appropriated out of the revenues of the District, for Fiscal Year 2022/2023, the amounts identified below to be raised by the levy of assessments and/or otherwise, which sum is deemed by the Board to be necessary to defray all expenditures of the District during said budget year, to be divided and appropriated in the following fashion:

TOTAL GENERAL FUND

See Exhibit A

SECTION 3. BUDGET AMENDMENTS

Pursuant to Section 189.016, *Florida Statutes*, the District at any time within Fiscal Year 2022/2023 or within 60 days following the end of the Fiscal Year 2022/2023 may amend its Adopted Budget for that fiscal year as follows:

- a. The Board may authorize an increase or decrease in line item appropriations within a fund by motion recorded in the minutes if the total appropriations of the fund do not increase.
- b. The District Manager or Treasurer may authorize an increase or decrease in line item appropriations within a fund if the total appropriations of the fund do not increase and if the aggregate change in the original appropriation item does not exceed \$15,000 or 15% of the original appropriation.
- c. By resolution, the Board may increase any appropriation item and/or fund to reflect receipt of any additional unbudgeted monies and make the corresponding change to appropriations or the unappropriated balance.

d. Any other budget amendments shall be adopted by resolution and consistent with Florida law.

The District Manager or Treasurer must establish administrative procedures to ensure that any budget amendments are in compliance with this Section 3 and Section 189.016, Florida Statutes, among other applicable laws. Among other procedures, the District Manager or Treasurer must ensure that any amendments to budget under subparagraphs c. and d. above are posted on the District's website within 5 days after adoption and remain on the website for at least 2 years.

SECTION 4. **EFFECTIVE DATE.** This Resolution shall take effect immediately upon adoption.

PASSED AND ADOPTED THIS 15TH DAY OF AUGUST, 2022.

RUSTIC OAKS COMMUNITY DEVELOPMENT DISTRICT

RUSTIC OAKS COMMUNITY DEVELOPMENT DISTRICT FISCAL YEAR 2022/2023 BUDGET FUNDING AGREEMENT

This Agreement ("**Agreement**") is made and entered into this 15th day of January, 2022, by and between:

Rustic Oaks Community Development District, a local unit of special-purpose government established pursuant to Chapter 190, Florida Statutes, and with an address of c/o Wrathell, Hunt & Associates, LLC, 2300 Glades Road, Suite 410W, Boca Raton, Florida 33431 ("**District**"), and

Meritage Homes of Florida, Inc., a Florida Corporation, and the developer of the lands in the District ("**Developer**") with a mailing address of 10117 Princess Palm Ave, Suite 550, Tampa, Florida 33610.

RECITALS

WHEREAS, the District was established for the purpose of planning, financing, constructing, operating and/or maintaining certain infrastructure; and

WHEREAS, the District, pursuant to Chapter 190, Florida Statutes, is authorized to levy such taxes, special assessments, fees and other charges as may be necessary in furtherance of the District's activities and services; and

WHEREAS, Developer presently is developing the majority of all real property ("**Property**") within the District, which Property will benefit from the timely construction and acquisition of the District's facilities, activities and services and from the continued operations of the District; and

WHEREAS, the District is adopting its general fund budget for Fiscal Year 2022, which year concludes on September 30, 2023; and

WHEREAS, this general fund budget, which the parties recognize may be amended from time to time in the sole discretion of the District, is attached hereto and incorporated herein by reference as **Exhibit A**; and

WHEREAS, the District has the option of levying non-ad valorem assessments on all land, including the Property owned by the Developer, that will benefit from the activities, operations and services set forth in the Fiscal Year 2022 budget, or utilizing such other revenue sources as may be available to it; and

WHEREAS, in lieu of levying assessments on the Property, the Developer is willing to provide such funds as are necessary to allow the District to proceed with its operations as described in Exhibit A; and

WHEREAS, the Developer agrees that the activities, operations and services provide a special and peculiar benefit equal to or in excess of the costs reflected on **Exhibit A** to the Property; and

WHEREAS, the Developer has agreed to enter into this Agreement in lieu of having the District levy and collect any non-ad valorem assessments as authorized by law against the Property located within the District for the activities, operations and services set forth in **Exhibit A**;

NOW, THEREFORE, based upon good and valuable consideration and the mutual covenants of the parties, the receipt of which and sufficiency of which are hereby acknowledged, the parties agree as follows:

- 1. **FUNDING.** The Developer agrees to make available to the District the monies ("**Funding Obligation**") necessary for the operation of the District as called for in the budget attached hereto as **Exhibit A** (and as **Exhibit A** may be amended from time to time pursuant to Florida law, but subject to the Developer's consent to such amendments to incorporate them herein), within thirty (30) days of written request by the District. The funds shall be placed in the District's general checking account. These payments are made by the Developer in lieu of taxes, fees, or assessments which might otherwise be levied or imposed by the District. Nothing contained herein shall constitute or be construed as a waiver of the District's right to levy assessments in the event of a funding deficit.
- 2. **ENTIRE AGREEMENT.** This instrument shall constitute the final and complete expression of the agreement among the parties relating to the subject matter of this Agreement. Amendments to and waivers of the provisions contained in this Agreement may be made only by an instrument in writing which is executed by both of the parties hereto.
- 3. **AUTHORIZATION.** The execution of this Agreement has been duly authorized by the appropriate body or official of all parties hereto, each party has complied with all of the requirements of law, and each party has full power and authority to comply with the terms and provisions of this instrument.
- 4. **ASSIGNMENT.** This Agreement may be assigned, in whole or in part, by either party only upon the written consent of the other. Any purported assignment without such consent shall be void.
- 5. **DEFAULT.** A default by either party under this Agreement shall entitle the other to all remedies available at law or in equity, which shall include, but not be limited to, the right of damages, injunctive relief and specific performance.
- 6. **ENFORCEMENT.** In the event that any party is required to enforce this Agreement by court proceedings or otherwise, then the parties agree that the prevailing party shall be

entitled to recover from the other all costs incurred, including reasonable attorneys' fees and costs for trial, alternative dispute resolution, or appellate proceedings.

- 7. **THIRD PARTY BENEFICIARIES.** This Agreement is solely for the benefit of the formal parties herein and no right or cause of action shall accrue upon or by reason hereof, to or for the benefit of any third party not a formal party hereto. Nothing in this Agreement expressed or implied is intended or shall be construed to confer upon any person or corporation other than the parties hereto any right, remedy or claim under or by reason of this Agreement or any provisions or conditions hereof; and all of the provisions, representations, covenants and conditions herein contained shall inure to the sole benefit of and shall be binding upon the parties hereto and their respective representatives, successors and assigns.
- 8. **CHOICE OF LAW.** This Agreement and the provisions contained herein shall be construed, interpreted and controlled according to the laws of the State of Florida.
- 9. **ARM'S LENGTH.** This Agreement has been negotiated fully among the parties as an arm's length transaction. The parties participated fully in the preparation of this Agreement with the assistance of their respective counsel. In the case of a dispute concerning the interpretation of any provision of this Agreement, the parties are each deemed to have drafted, chosen and selected the language, and the doubtful language will not be interpreted or construed against any party.
- 10. **EFFECTIVE DATE.** The Agreement shall be effective after execution by the parties hereto.

[SIGNATURES ON NEXT PAGE]

Board of Supervisors

Rustic Oaks Community Development District

RE: Rustic Oaks Community Development District Stormwater Needs Analysis for Rustic Road CDD

To Whom It May Concern:

Pursuant to the Board of Supervisor's authorization, Clearview Land Design, P.L. is pleased to submit this Stormwater Needs Analysis Report for the Rustic Oaks Community Development District. This report has been prepared on behalf of the District in accordance with sections 403.9301 and 403.9302 of Florida Statues. This report be submitted to Sarasota County by June 30th, 2022. The county will then submit to the Department of Environmental Protection and Office of Economic and Demographic Research (EDR) by July 31st, 2022. EDR will publish an analysis of the submissions in the 2023 edition of the Annual Assessments of Florida's Water Resources and Conservation Lands. This report provides a general description of the stormwater facilities that are currently owned and maintained by the District. The report includes the following attachments:

- Pond Slope Erosion Educational Information
- FDEP Illicit Discharge Presentation
- Stormwater Needs Analysis Part 1 (Maintenance Program)
- Stormwater Needs Analysis Part 2 (Budget Program)
- Rustic Road Master Drainage Plan/Stormwater Pipe Sheet

Thank you for this opportunity to be of professional service.

Sincerely,

CLEARVIEW LAND DESIGN, P.L.

Jordan Schrader, P.E. District Engineer

Exhibit A- Pond Slope Erosion Educational Information

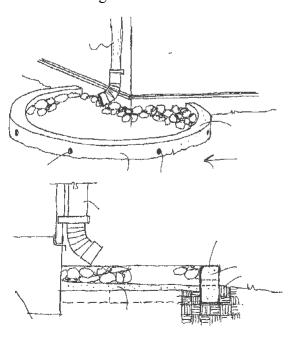

STORMWATER POND SLOPE EROSION

The slopes of the community's stormwater ponds must be maintained with proper vegetation in order to control and prevent *erosion*, or loss of the soil. Erosion of the slopes can be extremely expensive to repair and can sometimes also add unwanted sediment to the water that can negatively affect the water quality in the pond. In addition, eroded banks make it difficult to access and maintain the ponds and unchecked erosion may cause damage to the properties of homeowners next to the affected pond.

The slopes are susceptible to erosion due to

- wave action in the ponds
- the normal fluctuation of the groundwater levels between the rainy and dry seasons
- direct discharge of water from roofs or drains, such as through a roof downspout, a pool overflow pipe, or a water conditioner outflow pipe, that is very concentrated and can carry away soil in its path
- direct discharges from pool drains and water conditioners that contain chemicals such as chlorine or salt that can kill the grass and/or plants that keep the soil in place
- lack of grass and/or plants since vegetation helps keep the soil in place.

Discharges of water from roofs, pools, and water conditioners can significantly damage pond berms and slopes due to the quality of the water and the concentrated flow of water. Residents who have, or plan to create, a concentrated discharge of water must contact the CDD office to discuss ways to reduce the erosion potential. One way to avoid a concentrated discharge is shown in the illustration below:

It is also very important for vegetation to be established and maintained, on both private and CDD properties, within the pond berms and slopes so that bare soil doesn't lead to erosion. Any aquatic plants that the CDD may plant along the pond slopes should be protected to help stabilize the pond slope along and below the grass line and normal water level.

The Rustic Oaks Community Development District (DD) will perform regular inspections of the ponds to assess their conditions and identify any areas that have eroded or show potential for erosion. These areas will be scheduled for appropriate maintenance.

The CDD will consider implementing a new pond slope maintenance program in accordance with guidelines from the University of Florida/IFAS Environmental Horticulture Department's Center for Landscape Conservation and Ecology. The program will use a Moderate to Gentle Slope with a cut bank for the ponds. Turf is planted to the water's edge and a no-mow zone will be established around the perimeter of the ponds. The no-mow strip will be groomed appropriately by the district's landscape maintenance company and will be left taller than a lawn. Homeowners must not mow, nor allow their landscape companies to mow, in the no-mow zone as this interferes with the proper functioning of the system. The following illustration provides more detail:

Exhibit B-FDEP Illicit Discharge Presentation

IDENTIFICATION AND ELIMINATION OF ILLICIT DISCHARGES

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION NPDES STORMWATER SECTION

PURPOSE...

- Educate staff and contractors to recognize, report, and stop illicit discharges.
- Create a culture of Pollution Prevention (P²) within OUR agency and community to prevent "pointless personal pollution."

WHY AM I HERE?

- YOU are in the field as part of your job
- YOU are the "eyes" of our local government or agency
- YOU are part of the front lines in preventing illicit discharges
- YOU need to know what to look for and what to do if you see illicit discharges

WHAT IS THE MS4?

- "Municipal Separate Storm Sewer System"
- It is your "Master Drainage System"
- The "system" includes road drainage, catch basins, channels, detention ponds, swales, ditches, pipes, etc.
- Owned by local governments, WCDs, special districts
- Ultimately discharges to surface waters (lakes, rivers, bays, ocean, wetlands)

HOW STORMWATER REACHES SURFACE WATER

- Sanitary sewer
- Storm sewer

WHAT IS A NPDES MS4 PERMIT?

- Required by Federal Clean Water Act and by 403.0885, Florida Statutes
- NPDES = "National Pollutant Discharge Elimination System"
 - Implement Stormwater Management Program (SWMP) to minimize stormwater pollutant loadings.
 - Prohibit non-stormwater discharge to the MS4 through education, rules, policies, and inspections.
 - Improve and restore impaired waters by reducing stormwater loads.

ALLOWABLE DISCHARGES INCLUDE...

- Flows from emergency fire fighting activities.
- Water line flushing.
- Irrigation from lawn watering.
- Air conditioning condensate
- Rising ground waters.
- Dechlorinated/desalinated swimming pool water.
- Residential car washing.

WHO IS RESPONSIBLE?

Everyone is!

- We have a permit and moral obligation to future generations.
- Contact your MS4 staff for assistance in identifying a possible illicit discharge you have observed and how to prevent it.

WHY BE CONCERNED WITH ILLICIT DISCHARGES?

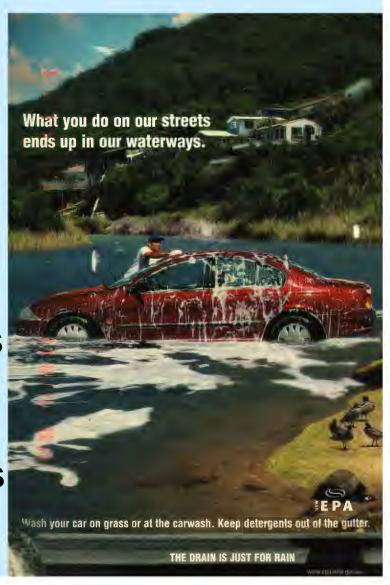

- To ensure that only stormwater goes into our MS4.
- To protect our lakes, rivers, estuaries, and wetlands from pollution.

ILLICIT DISCHARGES ARE...

- Any discharge to an MS4, surface water, or ground water that is not composed entirely of stormwater runoff.
- Illicit Discharges may include:
 - Deliberate discharges or dumping
 - Incidental runoff from sites with chemicals, raw materials, or bare soil.

What are Examples of Illicit Discharges?

- Raw Sewage/ Septic Effluent
- Washing machine wastewater
- Car wash wastewater
- Improper oil or household toxics disposal
- Improper radiator flushing
- Paints, pesticides, herbicides
- Construction and other debris
- Pressure washing with soaps
- Grass clippings or yard waste
- Spills from roadway accidents

Types of Illicit Discharges

- Illegal Dumping
- Illicit Connections
- Construction-related Discharges
- Pipe Defects (sanitary sewer)
- Accidental Discharge or Spills

Illegal Dumping

Discharge of pollutants or non-stormwater materials into the storm sewer system

REPORT IMMEDIATELY

Illicit Connection

An improper physical connection to the stormwater system which can include non-permitted connection(s) to our MS4.

Direct Connection

- Wastewater piping
- Sewage from residential property
- Washing machine discharge
- Pipes to a stormwater drain

Indirect Connection

- Cracked sanitary systems
- Spills collected by drain outlets
- Paint or used oil dumped into drainage systems

Construction-Related Discharges

These are discharges into the MS4 or right-of-way from adjacent construction projects.

Some examples are:

 Turbid water from dewatering and other construction activities.

 Contamination from discharges associated with remediation projects.

Non-permitted dewatering discharges

Sanitary Sewage

- Sanitary sewage may be present if there is black staining inside the drainage pipe; visible evidence of sanitary waste, floating debris, or opaque or gray water.
- Sewage may originate from septic tank overflow pipes or improperly dumped travel trailer waste.

Failing septic tank

Accidental Discharge or Spills

Reporting a discharge or spill

 The reporting requirements for spills are <u>25 gallons</u> or more of petroleum or petroleum based products.

Florida State Warning Point 1-800-320-0519

DOCUMENTING & REPORTING ILLICIT DISCHARGES

- Each MS4 has it's own SOPs – Part 2 of training
- Typically use inspection checklist
- Need to know to whom and how to report possible illicit discharge

Spill Response Procedures

Information needed when reporting a spill

- Name, address and phone number of person reporting the spill
- Name, address and phone number of responsible party for the discharge (if known)
- Date and time of the spill and status of spill (ongoing or ceased)
- Estimated amount of the spill
- Location or address of the spill
- Source or cause of the spill
- Description of area affected by the spill
- Provide as much information as possible

What to look for – common signs of illicit discharges

Common Signs of Discharges

- Staining from paints or solvents on outfalls pipes, inlets and grates, and around pond bank
- Turbidity, oil/gas sheen, foam and/or suds
- Abandoned oil and gas containers, barrels, and paint cans
- Discoloration of water or vegetation
- Floatables and debris
- Pungent odors or other smells

Oil / Gas

- Recognized as a sheen on the water = rainbow
- Natural sheens may be differentiated from an oil/gas sheen by swirling the sheen around in the water. If it re-attaches, the sheen is oil/gas.

Foams / Detergents

- Products used to wash boats/vehicles/buildings may include chlorine, phosphates and ammonia.
- These products often enter lakes and streams as a result of improperly connected car washes or washing machines.

Examples of Previous Illicit Connections and Discharges

Unknown pipe into storm sewer inlet

Water by nature is not green!

Examples of Previous Illicit Connections and Discharges

Washing machine discharge

Unknown pipe to inlet

Examples of Illicit Connectionsand Discharges

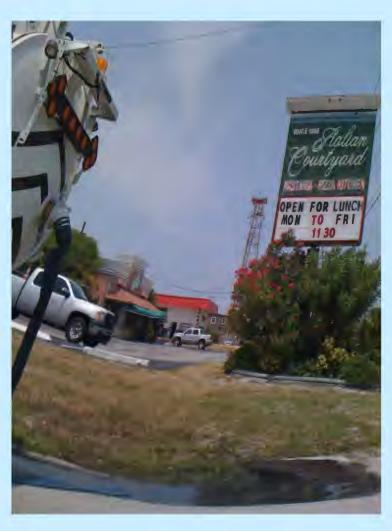

MORE INDICATIONS...

- A person emptying a drum or bucket of waste
- A tank or vactor truck draining its contents through a hose in a manhole
- A hose running out the back door of an industrial site into a ditch or a wooded lot

Even More Clues

- Unauthorized pipe which has been connected to the storm sewer
- Discoloration of channels and pipes
- Flow where there shouldn't be any

WHEN YOU FIND AN ILLICIT DISCHARGE...

- On a property under your control...
 - Stop the discharge.
 - Notify supervisor and/or safety officer.
 - Cleanup discharge or spill.
 - Implement strategy to prevent illicit discharges in the future.

WHEN YOU OBSERVE AN ILLICIT DISCHARGE...

- On a property not under your control...
 - Take picture and/or note location, characteristics, date, and time.
 - Identifying marks
 - Commercial vehicle?
 - Any ID on the door?
 - License Number
 - Report to MS4 immediately.

- Administration and Communication
 - Create a plan of action/SOPs to manage illicit discharges.
 - Stormwater Pollution Prevention Plan
 - Spill Cleanup Plan and Spill Cleanup Kits
 - Create channels of communication of reporting potential or observed illicit discharges.
 - These channels should go up and down the Org. Chart.
 - Like safety, P² is everyone's responsibility.

WE MUST SET AN EXAMPLE

- Housekeeping and Materials Management
 - Vehicle Washing/Maintenance
 - Wash water should never discharge to storm sewer or surface waters.

Maintenance should be performed

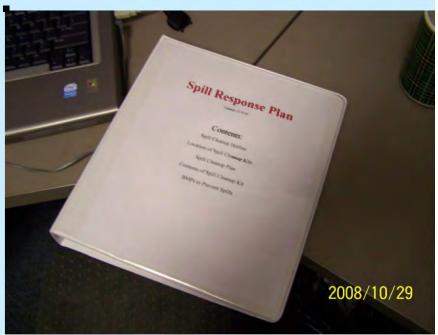

indoors.

- Housekeeping and Materials Management
 - Spill Prevention
 - Use drop cloths, drip pans, and secondary containment.

- Housekeeping and Materials Management
 - Spill Reporting and Response
 - Spill reporting hotline.
 - Spill Cleanup Plan,
 - Spill Cleanup Kit.

- Housekeeping and Materials Management
 - Street and Yard Maintenance
 - Street sweeping.
 - Inlet protection.

- Housekeeping and Materials Management
 - Material Storage
 - Cover stockpiles, drums, and other containers.
 - Know manufacturers storage guidelines.

- Housekeeping and Materials Management
 - Landscaping and Lawn care
 - Keep clippings out of street and stormwater inlets.
 - Sweep up spills and reuse the fertilizer.
 - Use Florida-friendly fertlizers = low or no phosphorus and slow release nitrogen.
 - Know manufacturers application rates.
 - Keep pesticides and fertilizers away from lakes, rivers, wetlands, streets, and stormwater inlets.

Part 1.0 Detailed description of the stormwater management program (Section 403.9302(3)(a), F.S.)

The stormwater management program, as defined in the Introduction, includes those activities associated with the management, operation and maintenance, and control of stormwater and stormwater management systems, including activities required by state and federal law. The detailed program description is divided into multiple subparts consisting of narrative and data fields.

Part 1.1 Narrative Description:

Please provide a brief description of the current institutional strategy for managing stormwater in your jurisdiction. Please include any mission statement, divisions or departments dedicated solely or partly to managing stormwater, dedicated funding sources, and other information that best describes your approach to stormwater:

other information that best describes your approach to stormwater:
The Rustic Oaks Community Development District ("CDD") is a new CDD with no completed infrastructure. The CDD staff has established some general stormwater Best Management Practices ("BMP") as part of its Master Drainage Plan, but long term maintenance will be planned over the next 5 years as the construction is completed and control transitions to the residents. Stormwater ponds and storm sewer systems within the CDD are planned to be owned and maintained by the CDD.

On a sca	ale of 1 t 1	o 5, with 2	5 being 3	the high	nest, ple 5	ase indicate the importance of each of the following goals for your program:
		4	Ш		Е	Drainage & flood abatement (such as flooding events associated with rainfall and hurricanes)
		4				Water quality improvement (TMDL Process/BMAPs/other)
		J				Reduce vulnerability to adverse impacts from flooding related to increases in frequency and duration of rainfall events, storm surge and sea level rise
						Other:

Part 1.2 Current Stormwater Program Activities:

Part 2. Detailed description of the stormwater management system and its facilities and projects (continued Section 403.9302(3)(a), F.S.)

A stormwater management system, as defined in the Introduction, includes the entire set of site design features and structural infrastructure for collection, conveyance, storage, infiltration, treatment, and disposal of stormwater. It may include drainage improvements and measures to prevent streambank channel erosion and habitat degradation. This section asks for a summary description of your stormwater management system. It is not necessary to provide geospatial asset data or a detailed inventory. For some, it may be possible to gather the required data from your Asset Management (AM) system. For others, data may be gathered from sources such as an MS4 permit application, aerial photos, past or ongoing budget investments, water quality projects, or any other system of data storage/management that is employed by the jurisdiction.

Please provide answers to the following questions regarding your stormwater system inventory. Enter zero (0) if your system does not include the component.

	Ni. and no a	Unit of
	Number	Measurement
Estimated feet or miles of buried culvert:		Feet
Estimated feet or miles of open ditches/conveyances (lined and unlined) that are maintained by the		
stormwater program:	0.00

Part 3. The number of current and projected residents served calculated in 5-year increments (Section 403.9302(3)(b), F.S.] Counties and municipalities: Instead of requiring separate population projections, EDR will calculate the appropriate population estimates for each municipality or the unincorporated area of the county. If your service area is less than or more than your local government's population, please describe in the first text box provided below for part 4.0. **Independent Special Districts:** If an independent special district's boundaries are completely aligned with a county or a municipality, identify that jurisdiction here: Rustic Oaks Community Development District is located within Sarasota County. Any independent special district whose boundaries do not coincide with a county or municipality must submit a GIS shapefile with the current and projected service area. EDR will calculate the appropriate population estimates based on that map. Submission of this shapefile also serves to complete Part 4.0 of this template. Part 4.0 The current and projected service area for the stormwater management program or stormwater management system (Section 403.9302(3)(c), **F.S.**) Rather than providing detailed legal descriptions or maps, this part of the template is exception-based. In this regard, if the stormwater service area is less than or extends beyond the geographic limits of your jurisdiction, please explain.

Proceed to Part 5

Similarly, if your service area is expected to change within the 20-year horizon, please describe the changes k.q., the expiration of

On-going construction of the Rustic Oaks Community Development District

an interlocal agreement, introduction of an independent special district, etc. q.

Exhibit D-Stormwater Needs Analysis Part 2

Part 5.0 The current and projected cost of providing services calculated in 5-year increments (Section 403.9302(3)(d), F.S.)

Given the volume of services, jurisdictions should use the template's service groupings rather than reporting the current and projected cost of each individual service. Therefore, for the purposes of this document, "services" means:

- 1. Routine operation and maintenance (inclusive of the items listed in Part 1.3 of this document, ongoing administration, and non-structural programs)
- 2. Expansion (that is, improvement) of a stormwater management system.

Expansion means new work, new projects, retrofitting, and significant upgrades. Within the template, there are four categories of expansion projects.

- 1. Flood protection, addressed in parts 5.2 and 5.3... this includes capital projects intended for flood protection/flood abatement
- 2. Water quality, addressed in part 5.2 and 5.3... this includes stormwater projects related to water quality improvement, such as BMAPs; projects to benefit natural systems through restoration or enhancement; and stormwater initiatives that are part of aquifer recharge projects
- 3. Resiliency, addressed in part 5.4... this includes all major stormwater initiatives that are developed specifically to address the effects of climate change, such as sea level rise and increased flood events
- 4. End of useful life replacement projects, addressed in part 6.0... this includes major expenses associated with the replacement of aging infrastructure

While numbers 3 and 4 have components that would otherwise fit into the first two categories, they are separately treated given their overall importance to the Legislature and other policymakers.

Expansion projects are further characterized as currently having either a committed funding source or no identified funding source. Examples of a committed funding source include the capacity to absorb the project's capital cost within current budget levels or forecasted revenue growth; financing that is underway or anticipated (bond or loan); known state or federal funding (appropriation or grant); special assessment; or dedicated cash reserves for future expenditure.

All answers should be based on local fiscal years (LFY, beginning October 1 and running through September 30). Please use nominal dollars for each year, but include any expected cost increases for inflation or population growth. Please check the EDR website for optional growth rate schedules that may be helpful.

If you have more than 5 projects in a particular category, please use the "Additional Projects" tab. There, you can use dropdown lists to choose the project category and whether there is a committed funding source, then enter the project name and expenditure amounts.

Part 5.1 Routine Operation and Maintenance

Please complete the table below, indicating the cost of operation and maintenance activities for the current year and subsequent five-year increments throughout the 20-year horizon. Your response to this part should exclude future initiatives associated with resiliency or major expenses associated with the replacement of aging infrastructure; these activities are addressed in subparts 5.4 and 6.0. However, do include non-structural programs like public outreach and education in this category.

If specific cost data is not yet available for the current year, the most recent (2020-21) O&M value can be input into the optional growth rate schedules (available on EDR's website as an Excel workbook). The most recent O&M value can be grown using the provided options for inflation, population growth, or some other metric of your choosing. If the growth in your projected total O&M costs is more than 15% over any five-year increment, please provide a brief explanation of the major drivers.

Routine Operation and Maintenance	Expenditures (in \$thousands)						
	LFY 2021-2022	2022-23 to	2027-28 to	2032-33 to	2037-38 to

Operation and Maintenance Costs	0	50	50	50	50		
Brief description of growth greater than 15% ov	er any 5-year peri	od:					
No infrastructure has been completed at this ti	me.						

Part 5.2 Future Expansion (Committed Funding Source)

Please list expansion projects and their associated costs for the current year and subsequent five-year increments throughout the 20-year planning horizon. In this section, include stormwater system expansion projects or portions of projects with a committed funding source. If you include a portion of a project that is not fully funded, the project's remaining cost must be included in part 5.3, Expansion Projects with No Identified Funding Source.

Though many, if not most, stormwater projects benefit both flood protection and water quality, please use your best judgment to either allocate costs or simply select the primary purpose from the two categories below.

- 5.2.1 Flood Protection (Committed Funding Source): Provide a list of all scheduled new work, retrofitting and upgrades related to flood protection/flood abatement. Include infrastructure such as storage basins, piping and other conveyances, land purchases for stormwater projects, etc. Also include major hardware purchases such as vactor/jet trucks.
- 5.2.2 Water Quality Projects (Committed Funding Source): Please provide a list of scheduled water quality projects in your jurisdiction, such as treatment basins, alum injection systems, green infrastructure, water quality retrofits, etc., that have a direct stormwater component. The projected expenditures should reflect only those costs.
 - If you are party to an adopted BMAP, please include the capital projects associated with stormwater in this table. Include BMAP project number, cost to your jurisdiction, and year(s) that capital improvement costs are to be incurred. For reference, DEP publishes a complete list of adopted BMAP projects as an appendix in their Annual STAR Report.

Expansion Projects with a Committed Funding Source

5.2.1 Expenditures (in \$thousands)

FIGOR PROTECTION

Part 5.3 Future Expansion with No Identified Funding Source

Please provide a list of known expansion projects or anticipated need(s) without formal funding commitments(s), formal pledges, or obligations. If you included a portion of a project that was partially covered by a committed source in part 5.2 above, list the projects and their remaining costs below.

5.3.1 Future Flood Protection with No Identified Funding Source: Please provide a list of future flood protection/flood abatement projects, associated land purchases, or major hardware purchases that are needed in your jurisdiction over the next 20 years. Future needs may be based on Master Plans, Comprehensive Plan Elements, Water Control Plans, areas of frequent flooding, hydrologic and hydraulic modeling, public safety, increased frequency of maintenance, desired level of service, flooding complaints, etc.

5.3.2 Future Water Quality Projects with no Identified Funding Source: Please provide a list of future stormwater projects needed in your jurisdiction over the next 20 years that are primarily related to water quality issues. Future needs may be based on proximity to impaired waters or waters with total maximum daily loads (TMDLs), BMAPs, state adopted Restoration Plans, Alternative Restoration Plans, or other local water quality needs.

- If you are party to an adopted BMAP, please list capital projects associated with stormwater. Include BMAP project number, cost to your jurisdiction, and year(s) that capital improvement costs are to be incurred.
- List other future water quality projects, including those in support of local water quality goals as well as those identified in proposed (but not yet adopted) BMAPs.

Part 6.0 The estimated remaining useful life of each facility or its major components (Section 403.9302(3)(e), F.S.)

Rather than reporting the exact number of useful years remaining for individual components, this section is constructed to focus on infrastructure components that are targeted for replacement and will be major expenses within the 20-year time horizon. Major replacements include culverts and pipe networks, control structures, pump stations, physical/biological filter media, etc. Further, the costs of retrofitting when used in lieu of replacement (such as slip lining) should be included in this part. Finally, for the purposes of this document, it is assumed that open storage and conveyance systems are maintained (as opposed to replaced) and have an unlimited service life.

In order to distinguish between routine maintenance projects and the replacement projects to be included in this part, only major expenses are included here. A major expense is defined as any single replacement project greater than 5% of the jurisdiction's total O&M expenditures over the most recent five-year period (such as a project in late 2021 costing more than 5% of the O&M expenditures for fiscal years 2016-2017 to 2020-2021).

If you have more than 5 projects in a particular category, please use the "Additional Projects" tab. There, you can use dropdown lists to choose the project category and whether there is a committed funding source, then enter the project name and expenditure amounts.

Part 7.0 The most recent 5-year history of annual contributions to, expenditures from, and balances of any capital account for maintenance or expansion of any facility or its major components. (Section 403.9302(3)(f), F.S.)

This part of the template also addresses a portion of s. 403.9302(3)(g), F.S., by including historical expenditures. Many local governments refer to these as "actual" expenditures.

Consistent with expenditure projections, the jurisdiction's actual expenditures are categorized into routine O&M, expansion, resiliency projects, and replacement of aging infrastructure. Additionally, the table includes space for reserve accounts. EDR's interpretation of subparagraph 403.9302(3)(f), F.S., is that "capital account" refers to any reserve account developed specifically to cover future expenditures.

Note that for this table:

- Expenditures for local fiscal year 2020-21 can be estimated based on the most current information if final data is not yet available.
- Current Year Revenues include tax and fee collections budgeted for that fiscal year as well as unexpended balances from the prior year (balance forward or carry-over) unless they are earmarked for the rainy day or a dedicated reserve as explained in the following bullets.
- Bond proceeds should reflect only the amount expended in the given year.
- A reserve is a dedicated account to accumulate funds for a specific future expenditure.
- An all-purpose rainy day fund is a type of working capital fund typically used to address costs associated with emergencies or unplanned events.

The sum of the values reported in the "Funding Sources for Actual Expenditures" columns should equal the total "Actual Expenditures" amount. The cells in the "Funding Sources for Actual Expenditures" section will be highlighted red if their sum does not equal the "Actual Expenditures" total.

If you do not have a formal reserve dedicated to your stormwater system, please enter zero for the final two reserve columns.

Routine O&M

Part 8.0 The local government's plan to fund the maintenance or expansion of any facility or its major components. The plan must include historical and estimated future revenues and expenditures with an evaluation of how the local government expects to close any projected funding gap (Section 403.9302(3)(g), F.S.)

In this template, the historical data deemed necessary to comply with s. 403.9302(3)(g), F.S., was included in part 7.0. This part is forward looking and includes a funding gap calculation. The first two tables will be auto-filled from the data you reported in prior tables. To do this, EDR will rely on this template's working definition of projects with committed funding sources, i.e., EDR assumes that all committed projects have committed revenues. Those projects with no identified funding source are considered to be unfunded. EDR has automated the calculation of projected funding gaps based on these assumptions.

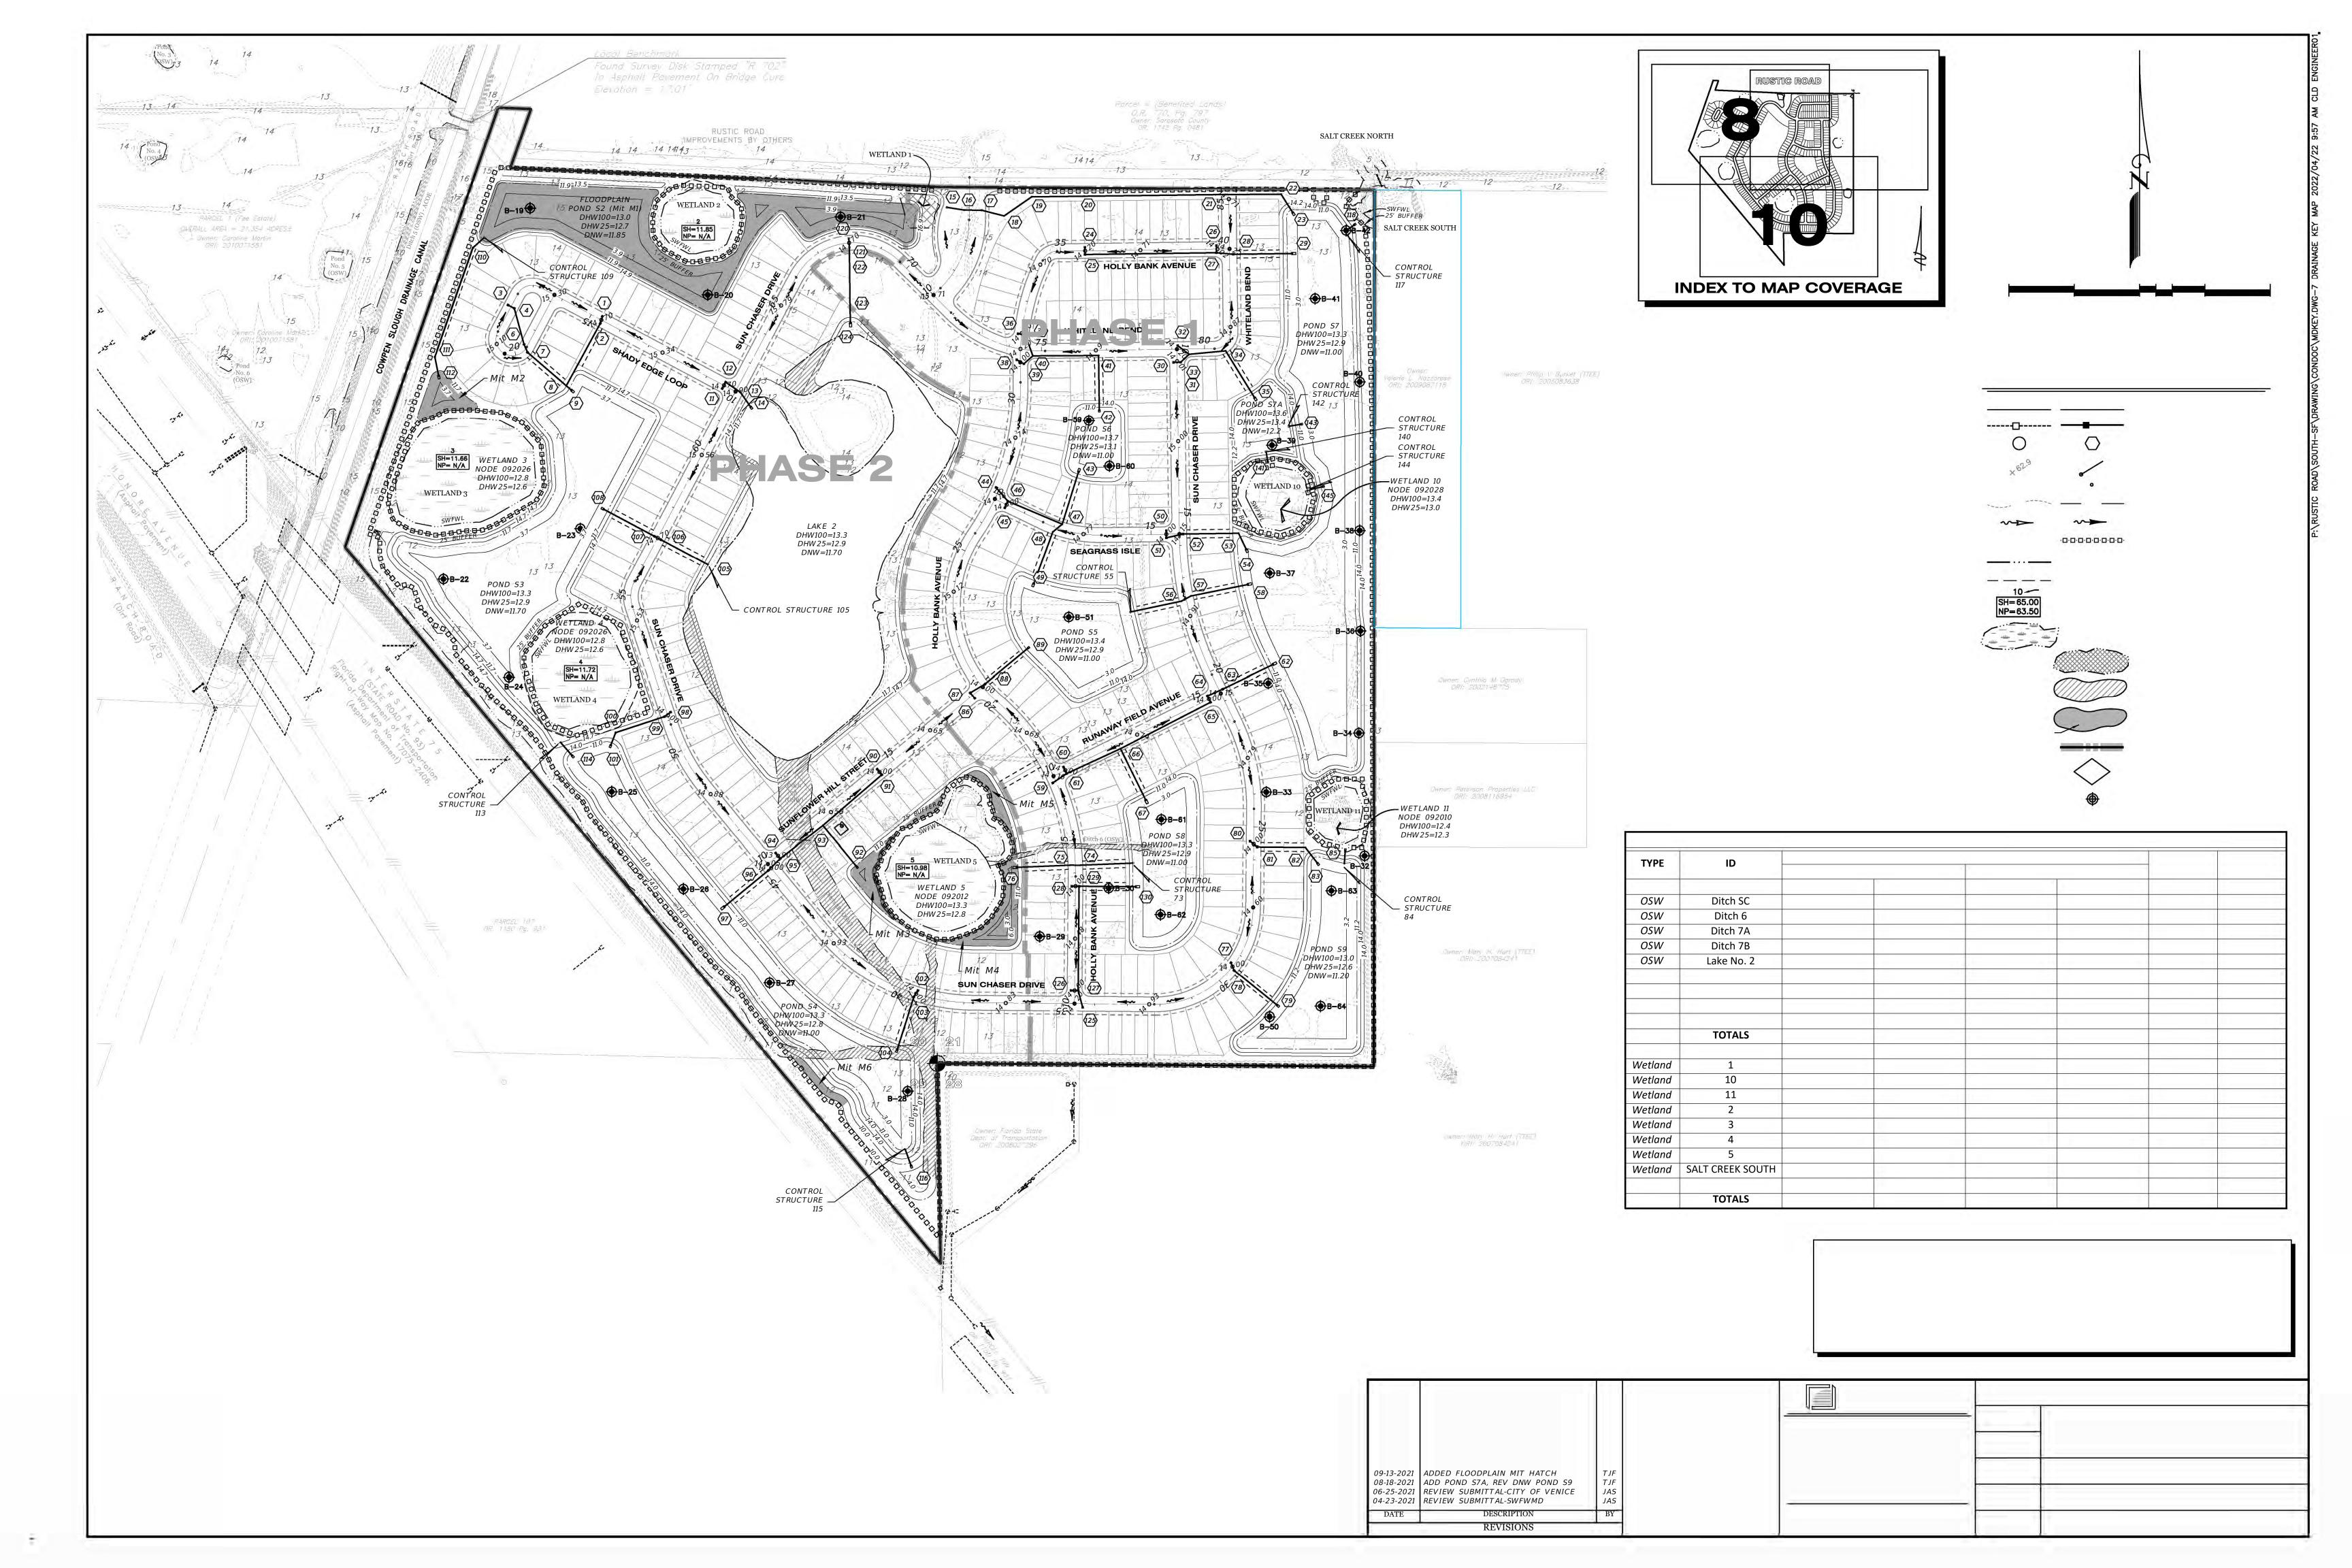

Committed Funding Source	2022-23 to	2027-28 to	2032-33 to	2037-38 to
Committee Funding Source	2026-27	2031-32	2036-37	2041-42
Maintenance	50	50	50	50
Expansion	3,720	0	0	0
Resiliency	0	0	0	0
Replacement/Aging Infrastructure	0	0	0	0
Total Committed Revenues (=Total Committed Projects)	3,770	50	50	50

No Identified Funding Source	2022-23 to	2027-28 to	2032-33 to	2037-38 to
No identified Failding Source	2026-27	2031-32	2036-37	2041-42
Maintenance	0	0	0	0
Expansion	0	0	0	0
Resiliency	0	0	0	0
Replacement/Aging Infrastructure	0	0	0	0
Projected Funding Gap (=Total Non-Committed Needs)	0	0	0	0

For any specific strategies that will close or lessen a projected funding gap, please list them in the table below. For each strategy, also include the expected new revenue within the five-year increments.

Strategies for New Funding Sources	2022-23 to	2027-28 to	2032-33 to	2037-38 to
Strategies for New Funding Sources	2026-27	2031-32	2036-37	2041-42
Total	0	0	0	0
Remaining Unfunded Needs	0	0	0	0
